Summary

Thanks to my strong communication and problem-solving skills, I continuously improve myself by finding effective solutions to challenges in my projects. I am always open to learning and highly enthusiastic about the rapidly evolving world of technology.

Education

Gazi University, Bachelor's Degree   **09.2019 – 06.2025**
Faculty of Engineering, Computer Engineering
Not: 2,91 / 4
Explanation: I suspended my registration for two semesters in the 2022-2023 academic year.

Experience

Software Developer, QNB Bank   **02.2025 – 02.2025**

- I provided efficient solutions by performing application testing and performance optimization.
- I developed software with OOP, SOLID principles and contributed to debugging processes.

Mendix Geliştirici, Native Digital   **01.2025 – 02.2025**

- I developed web and mobile applications with low code methods on the Mendix platform.
- I provided API usage and data integration.

Yazılım Geliştirici, FLO Mağazacılık A.Ş.   **08.2024 – 08.2024**

- I did UI/UX design, data management, Firebase integration and RESTful API usage with Dart.
- I took an active role in application testing and debugging processes.

Flutter Geliştirici, Oyun ve Uygulama Akademisi   **01.2024 – 07.2024**

- I actively took part in debugging and testing processes by performing version control with Git.
- I successfully completed projects with teamwork in Agile and Scrum methodology and gained experience in software architecture.

Projects

Firebase Based Social Media Application

- I developed a social media app using Flutter and Firebase.
- I provided data synchronization with Firebase Authentication, Firestore and Realtime Database.
- I automated backend processes with Cloud Functions and integrated notifications with FCM.

Mental Health Application with Flutter

- I developed a mental health focused mobile app with Flutter and Bloc.
- I provided a powerful backend and secure data storage using Node.js and PostgreSQL.
- I made the app modular and maintainable using Clean Architecture.

Foreign Language

- English: B1 (Konuşma, Yazma, Okuma, Dinleme)
- German: A2 (Konuşma, Yazma, Okuma, Dinleme)

Certificates
- Mobile Application Development with Flutter

- Google Project Management

- Technology Entrepreneurship

- Artificial Intelligence-Added Application Development

Volunteering
- Gazi Business Life Community

- Google Developer Student Clubs Türkiye

Skills
- Design Patterns, Algorithms, Software Architecture, SOLID, Data Structures and OOP

- Java, JavaScript and Dart

Interests
- Doing physical activity.

- Reading technology-related documents.

- Meeting people by attending community events.
